| OSHA Recordable- Lost Time        | 0       | 0       | 1       | 0       |
| OSHA Recordable - Illness         | 0       | 0       | 0       | 0       |
| Death                             | 0       | 0       | 0       | 0       |
| Total Recordable                  | 1       | 1       | 1       | 1       |
| Total Restricted Duty Days        | 0       | 13      | 0       | 0       |
| Total Lost Time Days              | 0       | 0       | 110     | 0       |
| TRIR                              | 0.22    | 0.30    | 0.73    | 0.00    |
| LTRIR                             | 0.00    | 0.00    | 0.37    | 0.00    |
| EMR                               | 0.70    | 0.72    | 0.76    | 0.68    |

## 2022 HS&E MILESTONES

- TEST Angola has worked 11 years and accomplished 4.0 million man-hours without a DAFW and recordable injury
- VersaTech completed the year without any Recordable or lost time incidents throughout are worldwide operations.
- NFPA 70E electrical safe work practice in-house training available for all qualified and nonqualified employees
- Operator Qualification In-House Evaluator available for all OQ training requirements

## 2023 HS&E IMPROVEMENT GOALS

- Promote the benefits of pro-actively reporting incidents to include both accidents and near misses
- Revise and communicate safety roles and responsibilities to all employees including craftsmen, supervisors, and managers
- Communicate fit for duty gloves and hand placement initiative based on recent injuries
- Enhance competency / skills verification with visual onsite assessments
- Incorporate Keys to HS&E Improvement:
  - Leadership Expectations and Communication
  - Worksite Analysis (Leadership Boots on the Ground)
  - Continued Education and Training (Manager, Supervisor & Employee)
  - Right Tools and Equipment
  - Job Planning
